§03 · HOW A SESSION WILL WORK

SWIPE →

Five steps. One examiner. Out loud.

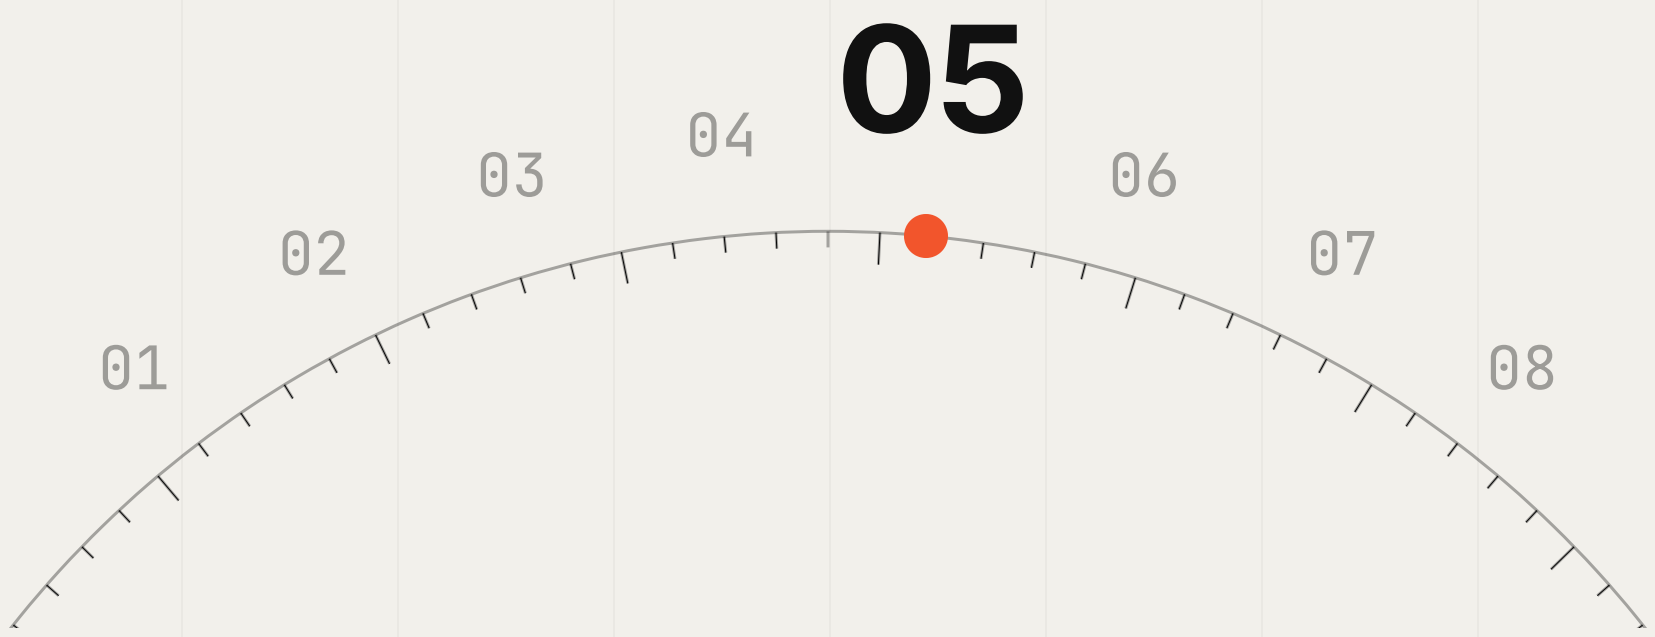

ILLUSTRATIVE INTERFACE · IN BUILD

§03 — STEP 01 / 05

01

Pick a topic.

Choose the system you want to be examined on: purifiers, boilers, MARPOL, the switchboard and the rest.

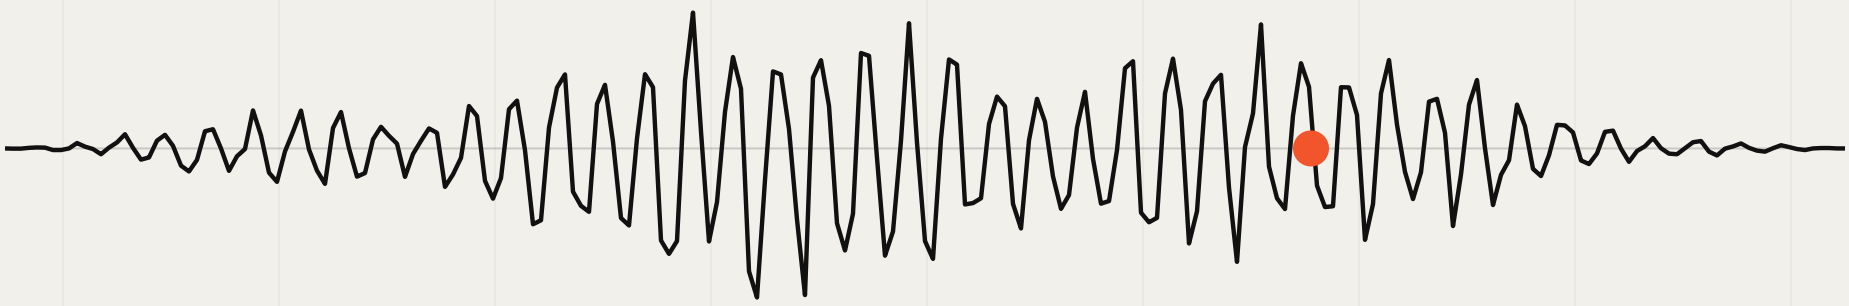

§03 — STEP 02 / 05

02

The examiner asks. Out loud.

A question, asked the way an examiner asks it. Flat, direct, no multiple choice.

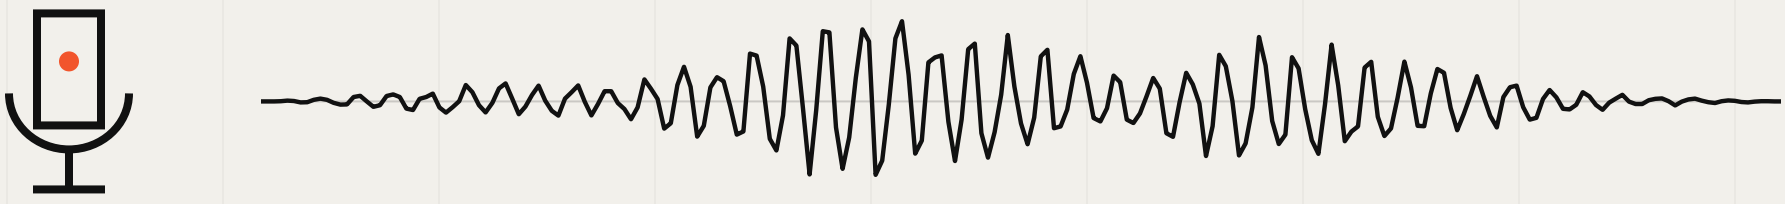

§03 — STEP

03 / 05

03

You answer. Out loud.

Talk it through as you would in the room. No mic, or a noisy cabin? Type your answer instead.

OR TYPE YOUR ANSWER…

§03 — STEP 04 / 05

04

It follows up.

A gap in your answer means a “why?” or a “what would you do next?” That's where orals are won and lost.

EXAMINER	And why does that matter?
YOU	Because the interface moves...
EXAMINER	So what would you do next?

§03 — STEP

05

You see where you stand.

A short report on accuracy, clarity and judgement, so you know what to revise next.

PLANNED FEATURE · ILLUSTRATIVE

§03 — NEXT STEP — WAITLIST OPEN

Want to try it first?

Waitlist members get first access when the examiner opens.
