§04 · MYTH CHECK

There is no 7th Annex.

MARPOL has six. Here's why the myth keeps turning up in orals.

● ANNEX VII · DOES NOT EXIST

SWIPE →

§04 — MARPOL 73/78 — FIG. 04.2

Six Annexes.

I	Oil
II	Noxious liquid substances in bulk
III	Harmful substances in packaged form
IV	Sewage
V	Garbage
VI	Air pollution

§04 — WHERE THE MYTH COMES FROM — FIG. 04.3

04.3

The “seventh” is really OPRC.

Oil pollution preparedness, response and co-operation sits in a separate convention: OPRC 1990. Candidates blur the two because they cover similar ground. Worth knowing it exists. Not worth calling it Annex VII.

§04 — WHAT THE EXAMINER WANTS — FIG. 04.4

04.4

Know the split, then the paperwork.

A strong answer links each Annex to what it creates on your ship: the IOPP certificate and Oil Record Book for Annex I, the Garbage Record Book for Annex V, the IAPP certificate for Annex VI.

§04 — WATCH OUT FOR !

Two easy ways to lose marks.

! Claiming there are seven Annexes.

! Mixing up Annex II (noxious liquids in bulk) with Annex III (harmful substances in packaged form).

EXPECT THESE FOLLOW-UPS

Q1 Which Annexes were compulsory on ratification?

Q2 What does the “78” in MARPOL 73/78 refer to?

Q3 Which Annex covers a refrigerant release?

§04 — NEXT STEP — WAITLIST OPEN

Save this for revision.
